

## ENVIRONMENTAL POLICY

Premier Relocations recognizes its responsibility towards the environment as an essential part of the continuity of its activities and the fulfillment of its mission. It considers essential to minimize or, when technically and economically possible, to eliminate adverse environmental impacts.

For such action to be possible, Premier Relocations is committed to:

- ♣ Incorporate in its activities continuous improvement and prevention of pollution;
  
- ♣ Promote efforts to improve the use of natural resources contributing to the process of sustainable development;
  
- ♣ Be attentive to prompt compliance with legal requirements regarding environmental aspects and impacts;
  
- ♣ Include the environmental objectives and goals in the strategic management of the company, in order to guarantee the structure and the natural resources necessary for its fulfillment;
  
- ♣ Maintain open channels with society, the community and its collaborators;
  
- ♣ Look for the environmental management system, opportunity for financial return and improvement of the company's competitiveness.
  
- ♣ Always preserve the environment and save resources and energy;
  
- ♣ Find and give preference to Partners and suppliers that adopt the Environmental Policy.

All employees involved in the environmental management of the company should be permanently aware of such issues and guidelines of this policy. Premier Relocations hopes to contribute to a better development of citizenship and environmental quality.
